

Woodwork

Class plan week 22nd-26th June.

Again this week we are revising all the learning that has happened online for the last 12 weeks.

I hope to keep this revision fun. I will be posting quizzes, word searches, crosswords and popular break the code quiz. It will cover all the areas we have looked at this past 3 months or so, hand and power tools.

I will post 3 different activities:

- Tuesday 23rd I will post quizzes based on the different Hand Tools and what those tools are used for.
- Wednesday 24th I will post quizzes based on Power Tools.
- Friday 26th I will post a break the code quiz.
